

THE

EL MOVEMENT

CAPABILITY - CONFIDENCE- SUCCESS

Little Balanced Futures

THE APPROACH

The EL movement is professional development with purpose. We work in your centre, alongside your Educational Leader, focusing on the areas that matter most — from mastering the planning cycle to embedding authentic children's councils. Every session is fully customised, tackling barriers and building strategies that fit your context. No templates. No one-size-fits-all. Just practical tools, collaborative problem-solving, and the confidence to lead with clarity — helping your service meet, and often exceed, NQS Element 7.2.2.

ABOUT ME

With 18 years in the early childhood sector, I've walked the full journey — from trainee to assistant educator, lead, 2IC, Educational Leader, and Centre Manager. My experience is broad, my methods have been tried, tested, and refined in real-world settings. At the heart of it all, my passion has always been educational leadership. My approach is calm, collaborative, and always anchored in what matters most — creating the best possible outcomes for children.
